## (2018-April) Church Construction in Savanette

Pastor Georné Lefranc has been a long-time student of the Bible Study by Extention program we have for pastors on Saturdays. In 2014 we helped Pastor Georné purchase land for the church. This spring, we were able to help the church construct a small building, which we completed in April 2018. The church is excited and thankful as they have begun to worship the Lord in their new building

## (2018-April) Evangelism in Lalomas

At the top of the mountain behind our house is a small village called Lalomas. Because it is at the top of a hard to reach mountain, those wanted by the police often hide out there. I've been warned by the police to avoid the area multiple times because of the danger. We climbed the mountain this month anyway to do some evangelism. At the top of the mountain we were surrounded by a group of 20 people, as we have them the gospel, many of them were already Christians. They began to beg us to send them a preacher that would teach them the Bible. One woman who was over 75 years old, had been saved over 20 years, but had never been to church because there was none to go to. Later we climbed back down the mountain, but with tears in our eyes and a yearning to return. spent time together preparing and cooking new pastry recipes which will help them to take care of their families.

## (2018-June) Cake Decorating Class for Pastor's Wives

RoseAnne has organized a series of vocational programs for the pastor's wives in our area. RoseAnne taught the first two days, and a group from the States came in to help with the final three days of the class. Many church activities, including weddings and anniversaries are traditionally celebrated with cakes. As cakes are expensive to purchase and difficult to decorate oneself, it is a help to the ministry if a pastor's wife can provide this service.

## (2018-June) Expanding Radio Studios

The radio station is continuing to faithfully broadcast doctrinally sound teaching from the Bible along with conservative Christian music. Although we are criticized sharply from all sides for our "old and slow" music, "Radio Maranatha" has an ever increasing listener base. We are preparing a big upgrade during the next six months. The first step this month is to add 4 new recording studios. We have the equipment for two of the studios already. During the months to come we are planning on purchasing a new radio tower, installing our new antennas, upgrading the amplifiers to double our transmission output, and adding a journalist to our staff so that we can have a local news broadcast. We are thankful for your prayers for the radio station.

## (2018-June) Pastry Class for Pastor's Wives

The week following the cake decorating class we held a pastry class for the pastor's wives again. We were able to have a lady who works professionally for several bakeries in Cap Haitian as well as teaching pastry classes in the city, come to our campus to teach a pastry class to the pastor's wives. It was a lot of hard work, but the ladies had a great time of fellowship as they spent time together preparing and cooking new pastry recipes which will help them to take care of their families.
